**Press Conference to Announce Legal Action to
Protect the Delaware River from Polluting Industrial Facilities**

WHAT: Press Conference to be held as litigation is filed by coalition of groups against the Salem Nuclear Plant and the Delaware City Refinery.

A coalition of environmental organizations will announce legal actions being taken to require two industrial facilities on the Delaware Estuary to reduce fish kills and limit pollution discharges.

The lawsuits to compel agency action are one of many steps that a coalition of concerned organizations are undertaking as part of their “Stop the Fish Kills” campaign, targeting the Salem plant, the Delaware City Refinery, and the PSEG’s Mercer Generating Station.

WHEN: Tuesday, October 1, 2013 at 2:00 p.m.

WHERE: State House Steps
125 W State St
Trenton, NJ

WHO: Maya van Rossum, the Delaware Riverkeeper
Jeff Tittel, Director, NJ Sierra Club
