Tina Fan, Ph.D.  
Director, Environmental and Chemical Laboratory Services  
Public Health and Environmental Laboratories  
New Jersey Department of Health  
3 Schwarzkopf Dr  
Ewing, NJ 08628

Dear Dr. Fan,

On behalf of the Delaware Riverkeeper Network, I am pleased to support your application to CDC RFA-EH19-1901 for the “State-Based Public Health Laboratory Biomonitoring Programs” cooperative agreement. The three projects outlined in your application “New Jersey Biomonitoring – Improving Public Health” will address the public exposures to various environmental contaminants in New Jersey. The data generated from the new projects will have significant impact on community health. The outreach and education activities proposed in the application will also increase public awareness of environmental exposure, promote prevention, and ultimately improve public health.

As a member of the Biomonitoring Commission of the NJDOH Biomonitoring Program, I am impressed by the excellent work conducted by you and your team. I am honored to serve on the Commission and happy to continue my role as the Biomonitoring Commission member. I will continue to serve as liaison between NJDOH and community, relate community concerns to NJDOH, and assist in public outreach.

Best wish for the success of your application and look forward to our continuing collaboration.

Sincerely,

A handwritten signature in blue ink that reads "Tracy Carluccio".

Tracy Carluccio
