

Fracked Gas Bomb Trains Through Philly?

Liquefied Natural Gas (LNG) bomb trains proposed to cut through Philadelphia neighborhoods – sign the petition to say NO!

We are calling on President Biden’s Administration to prevent the transport of Liquefied Natural Gas (LNG) by rail through Philadelphia for export overseas. A Special Permit was issued that ignored the long-standing ban on this unsafe practice, exposing all along the train route to potential catastrophe. We want that permit pulled back to protect our communities from this unjust threat!

STOP THE FRACKED GAS BOMB TRAINS!

Sign the Petition to speak with a united voice:
